- (11) Abide by the New York State Transportation Law and all applicable Parking, Vehicle and Traffic Laws, Ordinances, Rules and Regulations.
- (12) Temporarily move a vehicle or equipment to another location if the approved location is on public property and needs to be used for emergency purposes, snow removal, construction or other public benefits.

(13) Not sell confectionery or ice cream within 250 feet of any school between the hours of 8:00 a.m. and 4:00 p.m. on school days.

(14) Comply with all provisions of federal, state and local laws and ordinances.

(15) Comply with all notices, orders, decisions, rules and regulations made by the Village of Falconer Code Enforcement Officer, Village Clerk, Law Enforcement Agencies, Chautauqua County Health Department or any other local, state or federal department and/or agency.

B. The following regulations shall apply to vendors operating mobile food units:

(1) Mobile food vendors shall only operate within the boundaries of the Village Center, Commercial or Industrial zoning districts, or Village-owned property, unless catering on private property with a sign conspicuously posted on the mobile food unit stating, "Private Property – No Sales." A mobile food unit may operate outside of these boundaries, on public streets or within public rights-of-way if it makes intermittent stops for no more than 10 minutes and not less than 200 feet between each stop.

(2) To operate in an approved location, the vendor shall obtain and provide evidence of permission granted by the owner of the property, in written and notarized form, specifying the day(s), times and specific location(s) for which permission has been granted.

(3) Approved locations may not be adjacent to or within a radius of 100 feet of the nearest edge of any building or section of a building comprising a licensed food establishment, excluding any patio, awning or temporary enclosure attached thereto, the kitchen of which is open for serving food to patrons. This requirement may be waived if the application includes the written consent of the proprietor of the adjacent food establishment.

(4) Mobile food units may be operated by the vendor during hours as approved by the property owner. However, vendors may not operate mobile food vehicles:

a. Before 8:00 a.m.; or

b. After 9:00 p.m., Sunday through Thursday; or

c. After 10:00 p.m. on Friday and Saturday.

The Village Clerk may modify the license or certificate of compliance to allow a variance from these limitations during Village permitted, recognized or sponsored

festivals or special events that operate outside these hours.

- (5) Any mobile food unit operating outside of an approved route, at an unauthorized location or beyond the hours for which the operation has been permitted, shall be deemed operating without a permit in violation of this ordinance.
- (6) All signage shall be permanently affixed to the mobile food unit except each vehicle may use one sandwich board sign no larger than six square feet per side.
- (7) All mobile food units shall be equipped with trash receptacles of a sufficient capacity and shall be changed as necessary to prevent overflow or the creation of litter or debris. All trash, waste, litter, and debris shall be removed from the site of the vending operation at the end of each daily operation.
- (8) No alcohol, tobacco or cannabis products may be sold or dispensed from mobile food units.
- (9) It shall be unlawful to discharge liquid waste, fats, oils or grease on the land. Such discharges shall be held in appropriate containers and then disposed of in a legally permissible manner.
- (10) Mobile food units shall not conduct operation from a site that contains a gasoline service.
- (11) Mobile food vehicles that also meet the definition of a "mobile food preparation vehicle" as defined in the New York State Uniform Fire Prevention and Building Code shall be inspected annually by the Code Enforcement Officer for compliance with all applicable requirements.
- (12) All required permits and/or licenses shall be posted conspicuously on the mobile food unit.
- (13) Each mobile food vehicle shall be registered as a commercial vehicle with a state department of motor vehicles and hold an unexpired certificate of inspection.
- (14) When parked on a public or private right-of-way, a mobile food unit shall not operate within sixty (60) feet of an intersection with another public or private right-of-way boundary.
- (15) No mobile food unit shall operate within 500 feet of the boundary line of any festival or special event that is permitted, recognized or sponsored by the Village of Falconer, except when the vendor has obtained approval by the Board of Trustees.

(16) Any mobile food unit being operated without a valid mobile food unit permit issued by the Village, shall be deemed a public safety hazard, and may be ticketed and impounded.

(17) No mobile food unit shall be parked on the street overnight or left unattended and unsecured at any time food is kept in the mobile food unit. Any mobile food unit which is found to be unattended, shall be considered a public safety hazard and may be ticketed or impounded.

§ 90-11. Enforcement.

Primary enforcement of the regulations contained in this chapter shall be the responsibility of the Village Code Enforcement Officer or their designee. Matters concerning licensing shall be the responsibility of the Village Clerk. Matters concerning the Vehicle and Traffic Law, the New York State Transportation Law, illegal parking, and trespassing shall be the responsibility of the appropriate law enforcement agencies. If the Village Code Enforcement Officer determines an issue to be a police matter, the Code Enforcement Officer shall refer that issue to the Police Department. The Village Code Enforcement Officer shall administer this chapter and be authorized to issue appearance tickets for a violation of this chapter.

§ 90-12. Revocation of license or certificate of compliance.

A. Licenses or certificates of compliance issued under the provisions of this chapter may be revoked by the Village Clerk upon consultation with the Village Attorney, Village Code Enforcement Officer and/or the Ellicott Police Department. If the licensee has one or more employees, agents or contractors, the revocation hereunder shall apply to all. Revocation may occur for the following reasons:

- (1) Fraud, misrepresentation, or false statement contained in the application for license or certificate of compliance.
- (2) Fraud, misrepresentation, or false statement made while carrying on the business as peddler, vendor, or solicitor.
- (3) Any violation of this chapter.
- (4) Conviction of any crime or misdemeanor involving moral turpitude.
- (5) Conducting the business of peddling, vending or soliciting in an unlawful manner or in such a manner as to constitute a breach of the peace or as to constitute a menace to the health, safety, or general welfare of the public.

(6) Any breach of stipulations or conditions specified in the license, if any, or any deviation from the terms and agreements upon which a license has been granted as provided herein.

B. Notice of the hearing for revocation of a license or certificate of compliance shall be given in writing, setting forth specifically the grounds of complaint and the time and place of hearing. Such notice shall be mailed to the licensee's last known address at least ten days prior to the date set for the hearing.

C. The Village Clerk, upon receiving information providing reasonable cause to believe that the holder of any license issued hereunder has violated any provisions of this chapter or has been convicted of any violation referred to in this section or has been indicted or charged with or for any crime or offense or has been convicted of any crime or offense, may forthwith temporarily suspend such license until a hearing is held, as provided herein, and the Village Clerk shall have issued a determination thereon.

D. If the licensee has one or more employees, contractors or volunteers, the revocation hereunder shall apply to the licensee and all employees if either the licensee or any one or more of the licensee's employees, contractors or volunteers are determined to be in violation of this chapter.

§ 90-13. Appeals.

A. Any person aggrieved by the action of the Village Clerk in the denial of an application for a license, as provided in this chapter, or in the decision of the Village Clerk with reference to the revocation of a license, as provided in this chapter, shall have the right to appeal to the Village of Falconer Planning Board. Such appeal shall be taken by filing, within 14 days after notice of the action complained of has been mailed to such person's last known address, a written statement setting forth fully the grounds for the appeal. The Village Planning Board shall set a time and place for a hearing on such appeal and notice of such hearing shall be mailed to the applicant's last known address at least five days prior to the date set for the hearing.

B. Should any person affected by this chapter suffer an unnecessary hardship in the carrying out of the strict letter of this chapter, such person may apply to the Planning Board in writing for a variance from strict compliance with this chapter, with proof of such unnecessary hardship. For the purposes of this chapter, unnecessary hardship shall not be the mere delay in being permitted to make an application or waiting for a decision on the application for a permit.

C. The decision and order of the Village Planning Board on such appeal shall be final and conclusive.

§ 90-14. Eligibility for new license or certificate of exemption restricted.

Any person denied a license or certificate of compliance or whose license or certificate of compliance has been revoked in accordance with § 90-12 of this chapter shall be ineligible to apply for a new license or certificate of compliance for a period of six months from the date of such denial or revocation unless the applicant shows that the conditions upon which such action was based have been remedied or removed.

§ 90-15. Penalties for offenses.

Any person who violates any provision of this chapter shall be guilty of a violation. Each violation shall be punished by a fine not to exceed \$250 or by imprisonment for a period not to exceed 15 days, or both. In addition, such person shall incur a civil penalty of \$50 for each day on which violation continues.

§ 90-16. Severability.

The invalidity of any section or provision of this Local Law shall not invalidate any other section or provision of this Local Law.

3. CONFLICTING STATUTES.

All local laws or ordinances or parts of local laws or ordinances in conflict herewith are hereby repealed.

4. SEVERABILITY

Should any clause, sentence, paragraph, subdivision, section or other part of this local law be adjudicated by any court of competent jurisdiction to be invalid, such judgment, decree or order shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or other part thereof directly involved in the controversy in which such judgment, decree or order shall have been rendered and to this end, the provisions of each section of this local law are hereby declared to be severable.

5. EFFECTIVE DATE

This Local Law shall be effective immediately upon filing with the New York State Secretary of State.

Village of Falconer Farmers' and Artisans' Market

2025 Participation Rules and Regulations

Market Season:

**Every Saturday from June 7th through August 23rd, 2025
10:00am-4:00pm in Davis Park**

All Market vendors must apply and be accepted prior to setting up and vending. The Falconer Farmers' and Artisans' Market Manager (FFAMM) will be responsible for selecting market participants.

The term "vendor", as used herein, is someone who brings to market at least 75% of product(s) grown or produced directly by the vendor; this includes wineries and breweries. The term "artisan", as used herein, means someone who makes and sells handmade items at the Market. Other vendors will be approved at the discretion of the market manager. "Locally" is defined as products grown, raised or created in Western NY or Western PA.

MARKET PRODUCTS

1. All vendors must present copies of all appropriate licenses, permits and certificates to FFAMM prior to the start of the market season.
2. Products offered for sale must be of the highest quality. **Please submit a representative photo of the items you plan to sell with your vendor application.** If in the opinion of the FFAMM a vendor offers an inferior product, the vendor may be asked to withdraw the product(s).
3. Once approved to sell items of a specific product, a vendor may add products for sale should they fit within the approved category. For example, if a vendor is approved to sell vegetables, any type can be added without approval. However, they cannot add fruit bread or cut flowers if they were only approved to sell vegetables.
4. The market manager may schedule a farm visit at any time during the market season. Participating farms and the market manager must arrange the visit at a mutually convenient time if a visit is requested. Any farmer refusing a farm visit will result in immediate dismissal from the market.
5. Because of the complex Health Department regulations involving sampling, no sampling will be permitted at the market.

MARKET OPERATIONS

1. The 2025 Falconer Farmers' and Artisans' Market will operate every Saturday from 10am-4pm starting May 31st through August 23 in Davis Park. May 31st will be a no-charge soft opening of the market.
2. The market is open to approved farms, bakeries, wineries, craft breweries, artists, and crafters.
3. **All vendors must be ready by 9:30am.** Vendors may set-up between 8:00am and 9:30am at the discretion of the vendor. It is the responsibility of the vendor to arrive on-time to provide ample set-up time.
4. It is mandatory all vendors stay until the market closes at 2pm, unless all products have been sold.
5. If customers arrive at the market prior to the 10am opening, vendors may accommodate those sales at their discretion. Vendors should not occupy their space no later than 1-hour after the market closes.
6. Vendors must notify the market manager if unable to attend no later than 2:00pm on the Friday before the market day. (Email: clerk@falconerny.gov or call the office at 716-665-4400)
7. Smoking/vaping within market boundaries and or use of alcohol or illegal drugs is prohibited.

PRICING

Pricing of all products sold at the market is the responsibility of the individual vendor/artisan. Vendors and artisans are not permitted to give away products for free or at a below-cost pricing, thus undercutting the potential sales of other vendors/artisans.

NON-PROFIT ORGANIZATIONS

Non-profit organizations (service clubs, churches, school organizations) are welcome to participate free of charge for fundraising purposes only.

VENDOR GUIDELINES

1. Vendors supply their own tables, chairs, stand and/or canopy as needed. Tents must be properly weighted down to prevent tents from lifting in case of high winds.
2. **All vendors must maintain a clean and presentable booth at all times.** All spaces must be free of debris at the close of the Market.
3. All vendors must dress appropriately for the Market.
4. Vendors are required to have a visible sign or banner displayed stating the name of their business.
5. All products must be properly marked, priced and visible to customers upon Market opening.
6. Vendors are responsible for obtaining and visibly posting any and all necessary state and county permits & licenses that are legally required to operate their business.
7. Each vendor represents the integrity of the Falconer Farmers' and Artisans' Market. Customers are key to the success of the Market. All vendor employees must exhibit quality customer service at all times.
8. Flea market and garage sale items are not suitable for this venue and will not be permitted.

VENDOR SPACE ALLOCATION

1. Allocation of spaces are at the discretion of the FFAMM. Vendor seniority, product for sales and full season vs. daily vendors are factored into space allocation.

VENDOR FEES

1. The 2025 fee structure is as follows:
 - a. Season (12 weeks) = \$100.00
 - b. Per individual week = \$10.00
2. Vendor application fees must be paid when an agreement is submitted.
3. It is expected that all vendors participate in market days mutually agreed upon. Vendors who do not alert the FFAMM of an absence are subject to violations.

LIABILITY INSURANCE

All vendors must provide proof of liability insurance to FFAMM prior to selling at the market.

VIOLATIONS

1. 1st violation: Review of Falconer Farmers' and Artisans' Market Regulations with the Market Manager.
2. 2nd violation: Warning letter on behalf of FFAM and one week market suspension.
3. 3rd violation: Indefinite suspension for remainder of the season.

1. POLICY STATEMENT

This Helmet Camera Policy outlines the Falconer Volunteer Fire Department's (FFD) regulations regarding the use of on-person incident capture devices (helmet and body cameras) by department personnel. It clarifies the rights, responsibilities, and restrictions associated with such use, ensuring lawful and appropriate operation while protecting individual privacy and departmental integrity.

2. PURPOSE AND SCOPE

The primary uses of helmet cameras are to assist in the Protection and Safety of Persons and Property, Prevention or Detection of Criminal Offenses, Defense of Legal Claims, Training and that the professional image of the department is maintained. It is not FFD's intended purpose to use helmet cameras to monitor members' performance, except under circumstances such as subpoenas, FOIA (Freedom of Information Act) requests, complaints, citations, training evaluations, or incident reviews.

3. PRINCIPLES

A. Definitions:

- a. - **Helmet Camera:** A recording device affixed to a firefighter's helmet for capturing incident-related footage.
- b. - **Designated Responsible Person (DRP):** An individual authorized to manage access to recorded footage.
- c. - **FOIA:** The Freedom of Information Act, allowing public access to certain government records, subject to limitations.

The following principles apply:

- A. **Helmet cameras will be installed on department approved firefighters helmets. Fire department personnel are prohibited from using non-department owned helmet**

cameras while on-duty with FFD. The Fire Chief may grant an exception to this rule on an individual basis. Any permission granted by the Fire Chief shall be in writing and shall indicate any conditions or limitations upon the member.

- B. Helmet cameras shall only be utilized on scenes and training that Falconer Fire Department has been dispatched to and/or is attending and should not be utilized for any other teams members may be a part of. ie; FAST, TECH RESCUE ect.
- C. Only personnel who have been trained on compliance with this policy and who have been approved by the Fire Chief shall be permitted to use helmet cameras pursuant to this policy
- D. On-duty personnel shall only take images that are of business related matters of the department and events for purposes of incident documentation, evidence, training, investigation, and/or public relations. All images taken shall be considered public records and shall be managed in accordance with standard department practices for the retention and preservation of public records.
- E. All images taken with a helmet camera by on-duty personnel taken shall be preserved and shall not be deleted without the permission of the Fire Chief or his/her designee, except as permitted by the department. This includes; accidentally taken imagery, imagery which is blurred, imagery that is whited out or blacked out, or imagery that otherwise cannot be viewed.
- F. Helmet Cameras are set up in a way that ensures that there is minimal intrusion of privacy, and that any intrusion is fully justified. It is possible to review video if deemed necessary to determine fault in the case of a complaint, citation or incident.
- G. Access to retained images and videos will be restricted, with clearly defined rules to Designated Responsible Persons (DRPs) who can gain access. Members are advised that they have no expectation of privacy in the contents of any helmet cameras in their possession.
- H. The Helmet cameras cannot be accessed covertly to monitor the employees or to see what the operator is doing at that time. However, where an incident is captured that reveals inappropriate conduct that cannot in good conscience be ignored, FFD reserves the right to proceed in the best interests of the Village of Falconer and the Falconer Fire Department. This may include disciplinary proceedings, defense or litigation of a legal claim, and training. When relevant to do so, helmet cam footage may be retained and used for future training. We shall seek the members consent if we wish to use it for this purpose.
- I. Recorded images and information will be subject to appropriate security measures to safeguard against unauthorized access and use.
- J. All images taken by personnel are the sole property of the department, and are under the control of the Fire Chief or his/her designee. For purposes of copyright law such images are considered to be a work for hire owned solely and exclusively by the fire department.
- K. Members are expressly prohibited from taking any images of another person in any location where a person has a reasonable expectation of privacy, including a bathroom, bedroom, locker room, changing area, or any other location where a reasonable person would believe that he or she could disrobe in privacy, without being concerned that his

or her undressing was being photographed, filmed, or videotaped by another; or a place where one would reasonably expect to be safe from hostile intrusion or surveillance.

4. RESPONDING TO, OPERATING AT, AND RETURNING FROM INCIDENT SCENES

- A. The taking of imagery shall not interfere with nor delay operational activities.
- B. Imagery taken by on-duty personnel while responding to, operating at, and returning from incident scenes shall be for incident documentation, evidentiary, training, investigation, and/or public relations purposes only, and shall be subject to any limitations or restrictions imposed by the on scene incident commander.

Availability of images will be subject to the retention period. Members making such a request should do so in writing, providing the relevant time and date of the image, so that they may be easily identifiable. The request should be made to the current acting Chief.

- D. Images in the secured archive shall not be accessed by any party, or altered via any software product or utility such as Photoshop, unless express permission is granted in writing by the Fire Chief or his/her designee. If permission to alter an image is granted, the original image shall not be altered in any way, and any copies that are altered shall be appropriately identified and documented as being an altered copy. The details of the alteration including what was done (cropped, lightened, darkened, etc.), the name and rank of the member performing the alteration, and the time and date of the alteration, shall be noted and preserved.

FOIA requests will be approved for HIPAA sensitive information if requested by the Patient, Police Department, legal representative, fire investigation team, coroner and medical examiners, and subpoena.

7. MEMBERS

- A. As stated, the primary uses of helmet cameras are to assist in the Protection and Safety of Persons and Property, Prevention or Detection of Criminal Offenses, Defense of Legal Claims and Training. However, when helmet Cams are deployed, they are likely to capture pictures of members and emergency scenes.
- B. In accordance with the principle at 3(G) above, Helmet Camera evidence may be used as part of a member investigation by the disciplinary committee where, in the reasonable belief of officers, that there may have been misconduct, or a breach of Safety.
- C. Where footage is used in disciplinary proceedings, it will be retained for a further period of up to three years. The member will be permitted to see and respond to the images.
- D. Under appropriate circumstances the footage may be provided to Police (or other Competent Authority) with the intention to prosecute for criminal offenses. In defense of legal claims, or in pursuance of civil recovery, footage may also be provided to our legal representatives with the intention of providing evidence before the courts.

8. NON-MEMBERS

Where an incident involves a third party, the relevant insurers will be informed of the details. Although the third party may be made aware that there is recorded evidence in the form of helmet camera footage, a copy of the recorded material can only be obtained if requested by the subject themselves. Third Parties should also be aware that under appropriate circumstances the footage may be provided to Police (or other Competent Authority) with the intention to prosecute for criminal offenses. In defense of legal claims, or in pursuance of civil recovery, footage may also be provided to our legal representatives with the intention of providing evidence before the courts with a provided FOIA request.

9. COMPLAINTS

Complaints about the operation of the helmet camera system should be addressed initially to the current acting Chief.

10. MONITORING AND REVIEW

Pros and Cons of Firefighter Helmet Cameras

Introduction Firefighter helmet cameras have become an increasingly popular tool in fire departments across the world. These cameras provide real-time footage that can be used for training, accountability, and operational analysis. However, their use also comes with challenges and potential drawbacks. Below is an analysis of the pros and cons of firefighter helmet cameras.

Pros

1. Enhanced Training Opportunities

- Recorded footage can be used to train new recruits and experienced firefighters by reviewing real-life scenarios.
- Helps identify areas for improvement in tactics and strategies.

2. Improved Incident Documentation

- Provides an accurate record of events during fire incidents, rescue operations, and hazardous situations.
- Can assist in post-incident reports and legal documentation.

3. Increased Accountability and Transparency

- Helps ensure firefighters follow protocols and procedures.
- Can serve as evidence in investigations regarding firefighter conduct or accident analysis.

4. Safety and Situational Awareness

- Live streaming capabilities allow incident commanders to have better situational awareness.
- Enables real-time monitoring of dangerous situations for enhanced decision-making.

5. Public Relations and Education

- Footage can be used to educate the public on fire safety and emergency response efforts.
- Can help build community trust by showcasing the challenges and dedication of firefighters.

Cons

1. Privacy Concerns

- Potential privacy violations for civilians and firefighters captured on camera.
- Legal restrictions may limit the use and sharing of recorded footage.

2. Cost and Maintenance

- High-quality helmet cameras can be expensive to purchase and maintain.
- Requires regular upkeep and software updates to ensure functionality.

3. Distraction and Operational Interference

- The presence of a camera may cause some firefighters to become self-conscious or distracted.
- Additional equipment on the helmet may affect mobility and comfort.

4. Data Storage and Management

- Large amounts of video data require secure storage solutions.
- Proper management and retrieval of footage can be time-consuming and costly.

5. Potential Misinterpretation of Footage

- Camera angles may not capture the full scope of an incident, leading to misinterpretation.
- Videos may lack context, resulting in misleading conclusions.

Conclusion Firefighter helmet cameras offer significant benefits, including improved training, accountability, and operational analysis. However, challenges such as privacy concerns, cost, and data management must be carefully considered before widespread implementation. Fire departments must weigh these factors and establish clear policies to maximize the benefits while mitigating potential drawbacks.

RE: PIN 581506201 PROC 15560
SH 5067, Falconer Village
Town of Ellicott, Chautauqua County
Map(s) 23 Parcel(s) 28 FEE

Dear Ms. Cindy Capestrani, Village of Falconer:

The New York State Department of Transportation (NYSDOT) is progressing the above-captioned project to construct curb ramps and sidewalks to comply with the Americans with Disabilities Act (ADA) and department requirements for pedestrian accessibility in Chautauqua County and we are now able to extend an offer of just compensation to you for your property as described in the attached maps. Our offer, based on the amount of our highest approved appraisal, is **\$550.00 (Five Hundred Fifty and 00/100 Dollars)**.

To assist you with your review of our offer, enclosed please find the following documents:

- 1) **EXPLANATION OF ACQUISITION & OFFER OF SETTLEMENT (ROW 265-1)**
- 2) **HOW PROPERTY IS ACQUIRED IN NEW YORK STATE (ROW 432a)**
- 3) **ACQUISITION FACT SHEET (ROW 431a)**
- 4) **APPROPRIATION MAP:** This map depicts the area and interest the Department is acquiring. The map became official upon filing with the Department of Transportation on **2/20/2025**. After you have had a reasonable opportunity to consider the offer stated above, we will record this map with the County Clerk's Office where the property is located whereupon title will transfer from you to the State of New York; you will be notified of this by personal service or certified mailing of a Notice of Appropriation and map.
- 5) **PLAN SHEET**
- 6) **AGREEMENTS:** By law, you may receive your compensation either as an advance payment on your claim by signing and returning the enclosed Agreement for Advance Payment, or as a full settlement of your claim by signing an Agreement of Adjustment and Release of Owner (which will be provided upon request).
 - (a) If you sign the enclosed Agreement for Advance Payment, you may collect the amount stated on the agreement, plus applicable interest, and negotiate for additional compensation, if warranted and justified. The Agreement for Advance Payment provides you with the right to file a claim with the Court of Claims, within a three-year period from the date the Department delivers you a Notice of Appropriation. Your failure to file a claim in the Court of Claims within the three years shall be automatically deemed an acceptance of the amount paid as full settlement of your claim.
 - (b) If you sign the Agreement of Adjustment and Release of Owner, this settles your claim for the offered amount, plus applicable interest, and waives your right to file a claim in the Court of Claims. Please note that this agreement is not included in this offer package but is available upon request. For either type of agreement, please execute all four (4) originals in the presence of a notary public, if indicated. Keep one original for your files and return the other three (3) to my attention in the enclosed postpaid envelope.

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

HOW PROPERTY IS ACQUIRED IN NEW YORK STATE

The acquisition of property required for a public improvement occurs only after an extensive, coordinated process that includes careful planning, engineering and design. This leads to a determination of property that is needed to construct a public improvement. You may have attended one or more of the public hearings as part of the overall process.

When it is necessary for the Department to acquire private property, a detailed map is prepared to illustrate the extent of right of way needed from each property. Concurrently, a title search is conducted to determine the ownership interests in the property along with any liens and encumbrances. Title to the property is transferred to the State when the map is filed with the County Clerk's Office in the county in which the property is located. ***Before any transfer of title takes place, the law requires the State make an offer in writing for Just Compensation, which is based on the amount of the State's highest approved appraisal.***

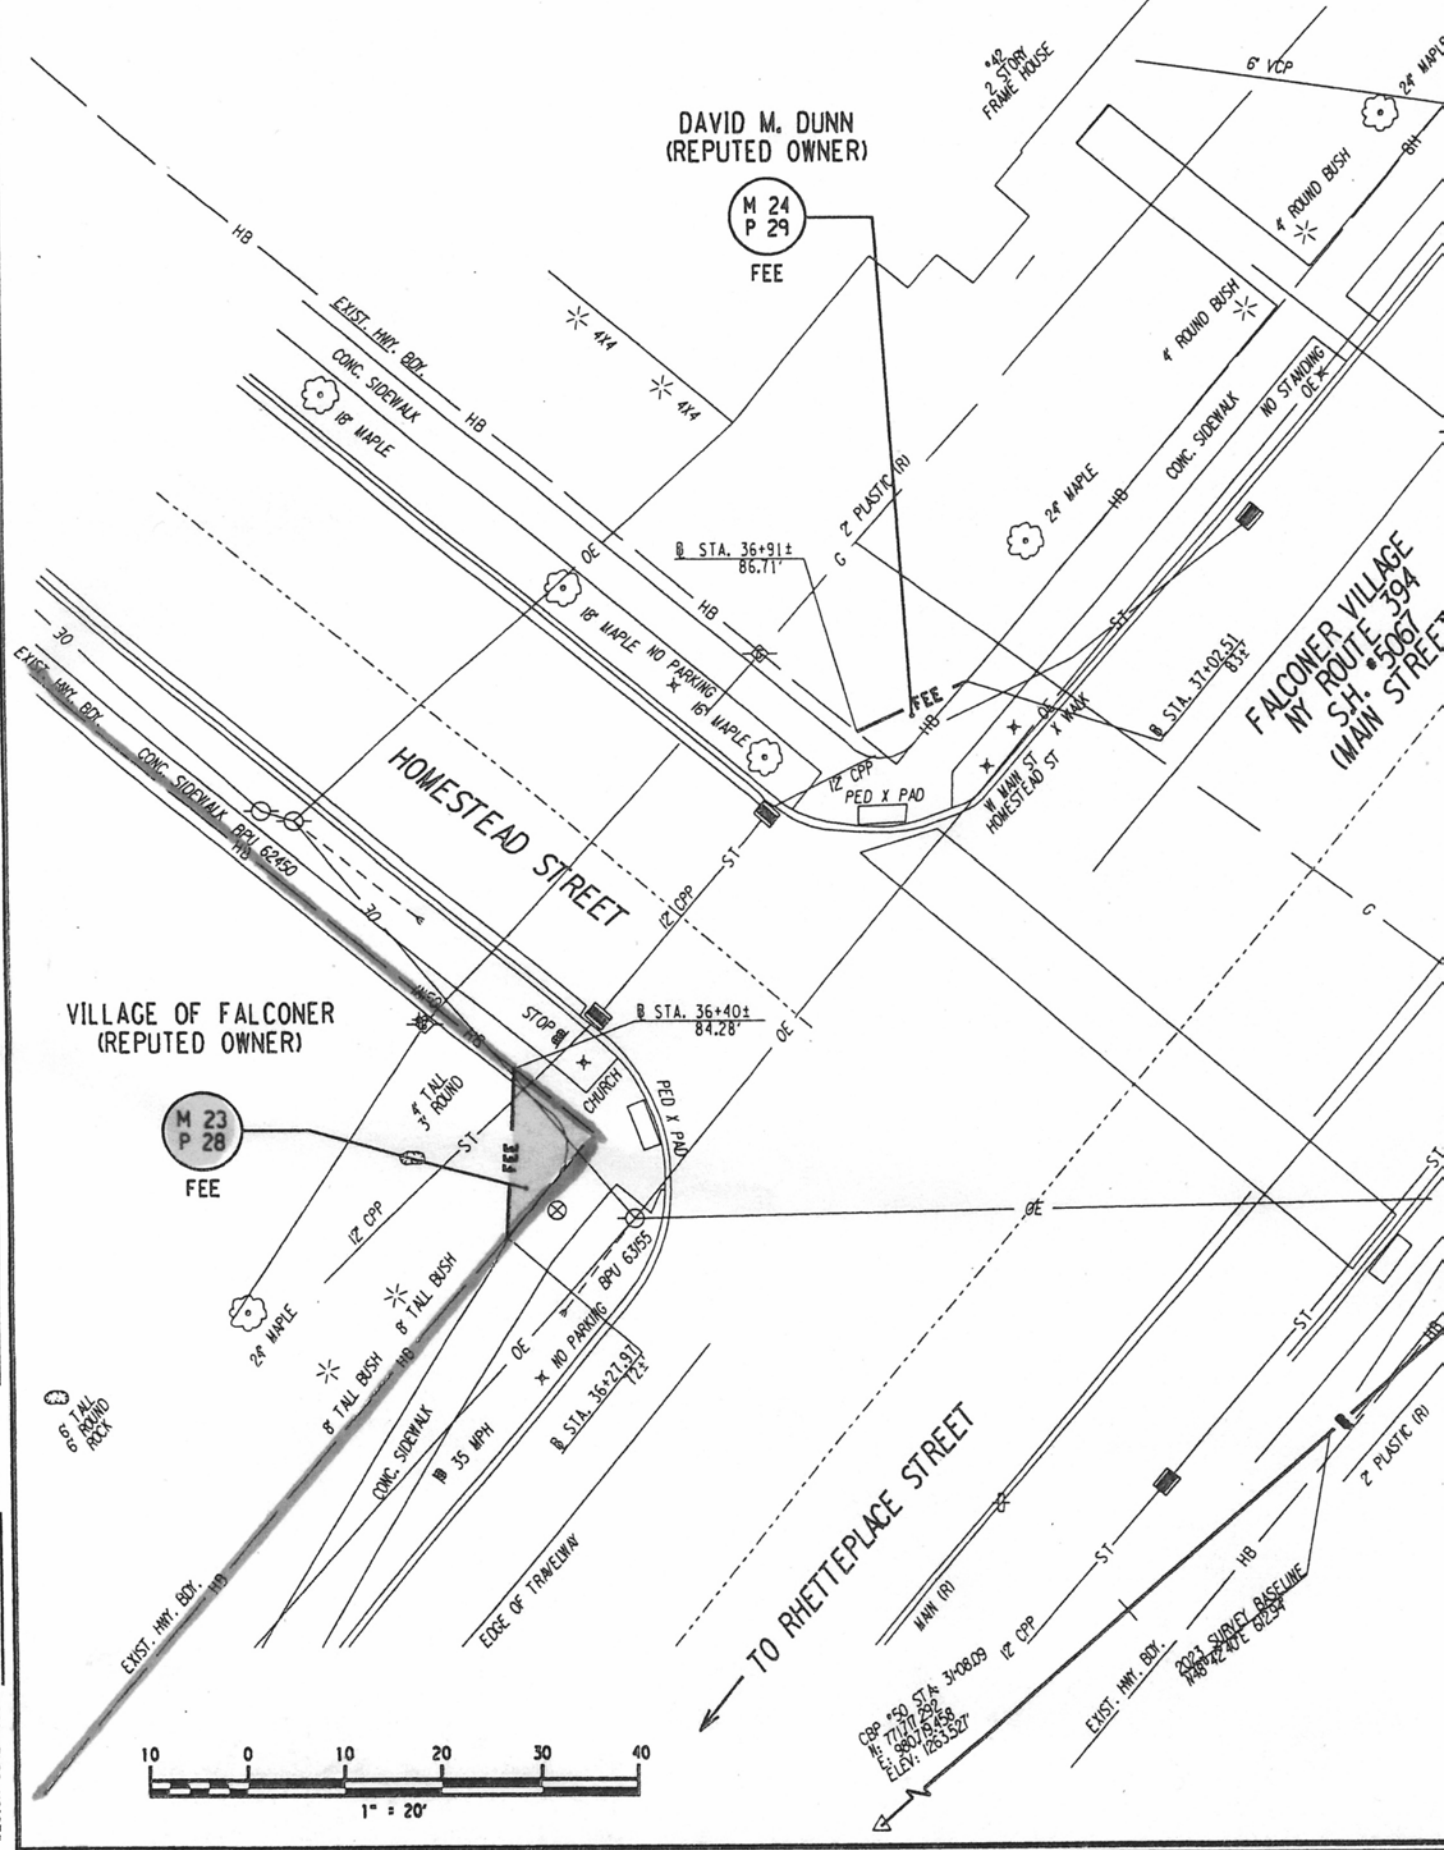

An appraisal is prepared either by Department or Consultant Appraisers, each of whom have had extensive experience in the valuation of real estate as well as having received special training in valuing property affected by eminent domain proceedings. You will be offered the opportunity to accompany the appraiser during the inspection of your property. In completing the appraisal, the Appraiser will analyze market conditions and prices at which properties similar to yours are sold. With your offer, you will receive a summary statement explaining the Just Compensation established and the basis for the valuation. If we are unable to arrive at an agreement in full settlement of your claim, you will have the option to collect an advance payment of the Just Compensation offered and continue negotiations. Agreeing to accept an advance payment affords you the time and opportunity to present additional information for consideration which you may feel has a bearing on the appraised value. Ultimately, you have the right to file a claim with the State Court of Claims if a full settlement cannot be reached. The Department representative assigned to your claim will explain the options for agreements and methods of payment at the time the offer is extended.

Occasionally, a claimant may refuse or fail to accept the State's offer, and the Map is still filed. In that case, if federal money is in any phase of the project, the amount offered will be deposited in a variable rate interest bearing account. Depositing the amount of the State's offer is considered to be the legal equivalent of payment to you and allows the State's Contractor to enter upon your property for construction even though you have not signed an agreement. To withdraw the amount deposited, a claimant must either sign an Agreement or formally request of the Court of Claims a distribution of the funds held in the interest bearing account. If there is no federal money in any phase of the project, the amount offered will not be deposited, but will accrue interest from the date the map is filed in accordance with State Law. In this situation, the filing of the map will allow the State's Contractor to enter upon your property for construction even though you have not signed an agreement.

Our acquisition process is not a routine real estate transaction, nor one which most people will experience. We expect you will have concerns and questions and we want to reassure you that our trained, professional staff will make themselves available to discuss the variety of issues that arise and assist you *throughout*.

Subject: Cornhole Event planned for August 23, 2025

Hi Cindy,

It was great speaking with you this morning. Prevention Works is planning a family friendly cornhole event on August 23, 2025, at our office location in Falconer.

- Is it possible to close off the one-way street that runs behind our office between our two parking lots, as we plan on utilizing the space for our event. We are also planning on speaking with our neighbors to let them know about the street closure, but we are confident it shouldn't be an issue.
- We plan on having family-friendly music playing during our event, and wondered if there was anything we needed to do to get that approved. Our event is going to run between the hours of 10:00 AM and 4:00 PM.
- Are there any permits we need to obtain before the event in August?
- We plan to have the following activities/food at the event
 - BBQ Chicken
 - Popcorn Machine
 - Slushie Machine
 - Approximately 10-15 Cornhole games happening at a time (In the large parking lot)
 - This is an alcohol-free event

Thank you for taking the time to help us get ready for our fun, family friendly event.
Please let me know if you have any questions.
